Gainful Employment Disclosures for the Career Builders for Educators – Secondary Program

Context

In regulations published October 29, 2010, the United States Department of Education specified information that must be made available to anyone considering enrollment in an academic program designed to prepare students for particular employment, so called "gainful employment" programs (http://ifap.ed.gov/GainfulEmploymentInfo/index.html). The following disclosures are those required by the federal regulations.

Job Placement Rates

Because the Career Builders for Educators – Secondary program prepares students to pursue a state teacher's license but does not include the state license itself, Indiana Wesleyan University cannot place graduates in teaching positions and cannot calculate a comprehensive placement rate for the program. Neither the Higher Learning Commission nor the state of Indiana require Indiana Wesleyan University to calculate placement rates – accordingly, the federal regulations do not currently require placement rate disclosure.

The Department of Education has promised to establish a formula for calculating placements rates for programs such as this one. Once the federal formula has been established, Indiana Wesleyan University will report placement rates by the federal formula.
