Curriculum Audit Handbook

By Dr. Rick Upchurch
Director of EXCEL Program, Huntington University

This 74-page handbook will give you a practical way to evaluate course design so that student learning takes place. The Curriculum Audit allows the course writer to

- evaluate the course against various standards
- insure a more integrated and balanced curriculum.
- spot at a glance any problem areas
- quickly move to that area to address the problem.

The use of this tool is a MUST for anyone who is writing a new course or modifying an existing one. It is a tool which has value for the novice as well as the experienced course writer.

An added benefit is that Administrators can use the Curriculum Audit Tool to review curriculum relative to the institution's educational philosophy and other expectations.

The author is Dr. Rick Upchurch, Director of EXCEL Adult Degree Programs at Huntington, University, Huntington, Indiana. Dr. Upchurch has been a leader in adult higher education since 1998.
