

IWU Library JSTOR Database Guide

The Journal Storage Archive contains JSTOR I, II, III and IV with over 700 journal titles.

JSTOR does *not* have **current** journals. As part of the JSTOR agreement, JSTOR maintains a "moving wall" of archived journals that are between 1 and 5 years old to avoid competition with current publishing.

Enter your search terms in the search box to search Full-text, Author, Title and Abstract.

The screenshot shows the JSTOR website header with the logo and the tagline "Trusted archives for scholarship". Below the header is a navigation menu with buttons for SEARCH, BROWSE, ABOUT, PARTICIPATE, RESOURCES, and MyJSTOR. A blue banner below the menu says "Update on the [Current Status](#) of the JSTOR System". Underneath are three buttons: Basic Search, Advanced Search, and Article Locator. The "Advanced Search" button is selected. Below this are links for "View Tutorial" and "Search Help". The main search area contains four input fields, each with a "full-text" dropdown menu and an "AND" dropdown menu. At the bottom of the search area is a checkbox labeled "Search for links to articles outside of JSTOR" with a question mark icon, and a "Search" button.

Searching for links outside of JSTOR expands your search results to other **online resources**. When finding non-full text items, use the **Journal Title Search** to check for full text availability.

- Other Online Resources:**
- American Society of Mammalogists
 - AnthroSource
 - Blackwell Publishing
 - Omohundro Institute of Early American History and Culture
 - Organization of American Historians
 - Oxford University Press
 - Project Muse
 - University of Chicago Press
 - University of Texas Press
 - University of Wisconsin Press

What to do when you find a citation without full text
Check the **Journal Title Search** list to see if the Library provides access in some other format or database. With access to 31,000+ titles in over 100 databases, your article may be available in full text from another source.
