

Student Textbook Information

Source Federal Regulation

HEOA Sec. 112 amended HEA Title I, Part C: added HEA Sec. 133 (20 U.S.C. 1015b) HEOA amendment effective July 1, 2010

To the maximum extent practicable, and in a manner of the institution's choosing, each institution must disclose on the institution's Internet course schedule used for preregistration and registration purposes, the International Standard Book Number (ISBN) and retail price information of required and recommended textbooks and supplemental materials for each course listed. If the ISBN is not available, the institution must include in the Internet course schedule the author, title, publisher, and copyright date for the textbook or supplemental material.

Textbook Butler, a service of Tree of Life Books, is available to help students easily obtain required textbooks throughout their program at IWU. This service is automatically provided but students can opt out and secure books elsewhere. Tree of Life Customer Service can assist with choosing the best option or opting out. For more information go to <https://indwes.treeoflifebooks.com>.

Upon arriving to the landing page, click on "Buy or Rent Books." You may then choose your term, department, course, and section in order to view the textbook information, including the ISBN, for the class.

This course material is required

Occasionally, courses are open for registration but the textbooks and materials have not been chosen by the faculty. In these cases a message saying "to be determined" will show in the search. If you register for a course and the textbook information has not been posted, you will receive an automatic email update when the textbook information is available.
