

Graduation Rates for CAPS DeVoe Business Programs

Notes:

- The term graduation rate is defined as the percentage of students who graduate within 150% of normal time to completion.
- Rates with low starting cohorts (N) of less than 10 are unstable; interpret with caution.
- Doctoral programs are difficult to report graduation rates due to some students taking extended time to complete their dissertation; thus the DBA graduate rates are left off this report. Average months to completion is provided.
- Benchmark goals for graduation rates are: Undergraduate 50% and graduate, 75%.
