School Partnership Manager, College Summit, Inc. I get to work with lots of amazing people in Indianapolis urban high schools to help students prepare a plan for life after high school.

In what ways have your experiences in the Honors College prepared you for your life now, professionally and personally? How did the Honors College shape how you view your vocation?
I feel like the Honors College courses encouraged me to stretch myself academically in disciplines that I might not have otherwise. I believe I am a more well-rounded person for the experience. I am more confident in my skills and abilities having graduated as an Honors College scholar. I am not afraid to take risks and accept challenges, which has enabled me to advance my career in a short period of time.

If you could give one piece of advice to students who are now in the Honors College, what would it be?
Fully embrace the rich experiences and opportunities that you receive from being an Honors College scholar. College only lasts a few short years, but the memories that you make during that time will be with you for the rest of your life.
