May

Summer Internships

The Summer Term is a wonderful time to complete your internship requirement for your degree. Last summer we had over 65 students completing this requirement at some of the companies below. Please stay in contact with your advisor if you find an internship after leaving campus. The course must be added, approved, and registered for through Student Planning, just like any course. The last day to add the course is May 28.

Each student completing the internship course must be admitted to the division.

Please complete all fall registration before you leave campus!
