

INDIANA WESLEYAN UNIVERSITY

Physical Education Classroom Observation Form—2008 NASPE Standards

Administration and Purpose. This assessment is administered during the student teaching semester. You will be observed 5-6 times during your student teaching placements, twice by your physical education content supervisor, and three or four times by your teacher education supervisor. Both supervisors will assess your teaching using this form.

This assessment has three related purposes. The first and perhaps most obvious is to document your ability to teach effectively. Teaching effectively is the minimum expectation for an Indiana Wesleyan teacher candidate. The second is to set a standard of excellence that you are expected to achieve. Each element within the eight domains of this assessment is an attribute or skill that successful teachers employ to enable students to become successful learners. We expect you to strive to reach the level of consistent excellence described in this assessment every day in every class you teach. The third purpose of this assessment is to create a space in which you can join with expert teachers in a collegial team, the purpose of which is to help you learn your craft by providing you with expert guidance and counsel in a supportive, nurturing environment. In addition to your cooperating teacher who will host and mentor you during your student teaching experience, your team also includes specialists from your content area and the teacher education faculty. Using this assessment document, your University content supervisor and teacher education supervisor will assist you in developing your teaching ability to the expected level of excellence.

Content of Assessment. The Student Teaching Observation Assessment is divided into eight sections that correspond to the eight domains of the Teacher as Decision Maker conceptual framework. This conceptual model emphasizes a strong knowledge base, and is composed of eight interdependent domains: content/subject matter expertise, personal development (morals and ethics), professional development, rights and responsibilities, methodology, management of time/classroom/behaviors, communication, and global/multicultural perspectives. The rubric elements within each of the eight domains describe the knowledge, skills and dispositions that we believe are highly correlated with teaching effectiveness and student learning and achievement.

In addition to being organized by the conceptual framework, this assessment also includes the following alignments:

- National Association of Sport and Physical Education (NASPE) 2008 standards. The IWU physical education program is nationally recognized by NASPE; this assessment is one of several used to affirm the strength of our program by that organization.
- Interstate New Teacher Assessment and Support Consortium (InTASC). The InTASC Standards outline the common principles and foundations of teaching practice that cut across all subject areas and grade levels and that are necessary to improve student achievement. The ten InTASC Standards are incorporated into this assessment, and are divided into four categories:
 - ✓ Learner and Learning (InTASC Standards 1, 2 and 3)
 - ✓ Content (InTASC Standards 4 and 5)
 - ✓ Instructional Practice (InTASC Standards 6, 7 and 8)
 - ✓ Professional Responsibility (InTASC Standards 9 and 10)
- Diversity Thread. Teacher candidates are expected to teach all students well.
- Technology Thread. Teacher candidates are expected to integrate technology into their teaching as a means to improve student learning.

Criterion for Success. *Candidates must achieve a rating of Competent to pass this assessment. For this assessment, Competent is defined as 80% or more of all rubric elements scored as competent or higher. No domain or assessment element may be scored as Needs Improvement.*

<p>Design and implement content that is aligned with lesson objectives.</p> <p>NASPE Standard 3.3 InTASC Standard 7</p>	<p>The candidate's instruction is incongruent with the subject matter/content, student population or learning outcomes. Teaching approach does not consider students' developmental levels, context of the class, or the environment in which the activity will be performed. Students participating in the learning activities fail to achieve the lesson objectives.</p> <p style="text-align: right;"><input type="checkbox"/></p>	<p>The candidate attempts to align instructional models and approaches with subject matter and lesson content, student developmental issues and instructional goals and objectives, but falls short of competence in one or more important areas.</p> <p style="text-align: right;"><input type="checkbox"/></p>	<p>The candidate's instruction is based on students' developmental levels, context of the class, and the context in which the skill/activity will be performed. His or her teaching is congruent with learning outcomes, the number of students in the class, pre-assessment of students' developmental levels, available equipment, space, and the context in which the skill/activity will be performed. Learning activities allow students to achieve objectives.</p> <p style="text-align: right;"><input type="checkbox"/></p>	<p>The candidate's teaching is congruent with learning outcomes and facilitates mastery. Teaching strategies maximize practice opportunities, allow for individual differences in skill levels, maximize the use of space and equipment, and allow students to practice tasks in appropriate environments related to the lesson context. Learning activities allow students to achieve objectives.</p> <p style="text-align: right;"><input type="checkbox"/></p>
<p>Plan for and manage resources to provide active, fair, and equitable learning experiences.</p> <p>NASPE Standard 3.4 InTASC Standard 3</p>	<p>The candidate does not plan or minimally plans for adaptations based on individual differences (abilities/needs/interests). Instruction is not individualized and a "one size fits all" approach is taken. The candidate uses one instructional model/approach throughout the lesson. The candidate does not make adaptations or offer choices in equipment, space use, or practice tasks based on individual differences.</p> <p style="text-align: right;"><input type="checkbox"/></p>	<p>The candidate's adaptations for unique student differences are overly generalized or do not consider the full range of issues present in the classroom.</p> <p>The lesson includes more than one instructional approach; adaptations allow for some, but still minimal student choice.</p> <p style="text-align: right;"><input type="checkbox"/></p>	<p>The candidate plans for instructional adaptations for individual differences. He or she articulates an appropriate rationale for adaptations, and uses multiple instructional models/approaches throughout the lesson to account for variations in learning styles and prior experiences. The candidate provides student choices in equipment, space, or level of practice tasks based on individual differences.</p> <p style="text-align: right;"><input type="checkbox"/></p>	<p>The candidate's plans routinely reflect sound rationale for sophisticated adaptations for levels and needs (interests and motivation). He or she uses multiple instructional models/approaches throughout the lesson to account for variations in learning styles and prior experiences. Students are given multiple choices (equipment, space, etc.) within practice tasks based on individual differences.</p> <p style="text-align: right;"><input type="checkbox"/></p>
<p>Plan and adapt instruction to diverse student needs, adding specific accommodations and/or modifications for student exceptionalities.</p> <p>NASPE Standard 3.5 InTASC Standard 7 Diversity Thread</p>	<p>The candidate fails to account for student exceptionalities or differences within the class. He or she does not make accommodations for the diversity found within the student population. Failure to account for exceptionalities includes the choices of units to be taught, selection of students chosen to demonstrate, degree of inclusion reflected in bulletin boards or other displays, and grouping of students for instruction or play.</p> <p style="text-align: right;"><input type="checkbox"/></p>	<p>The candidate minimally accounts for student exceptionalities or accounts for exceptionalities in a generalized way. Some accommodation is provided for diverse student populations, including choice of units to be taught, choice of students to demonstrate lesson concepts, degree of diversity reflected in lesson-related materials, and student grouping within the lesson.</p> <p style="text-align: right;"><input type="checkbox"/></p>	<p>The candidate accounts for student exceptionalities or differences within the class by modifying lessons based on factors such as gender, class, ethnicity, race, physical or mental handicap, or socioeconomic status. He or she demonstrates teaching behaviors that reflect thoughtful consideration of exceptionalities through such behaviors as the selection of units to be taught, inclusion of diversity in bulletin boards and other displayed materials, using a variety of students to demonstrate, and grouping students for instruction and play.</p> <p style="text-align: right;"><input type="checkbox"/></p>	<p>The candidate accounts for exceptionalities among students or makes accommodations for the diversity found within the student population using creativity and foresight. It is clear from the candidate's behaviors that components such as the selection of units of instruction, materials selected for display, the selection of students to demonstrate, and methods of grouping students that exceptionalities and diversity found within the student population and have driven instructional decision making.</p> <p style="text-align: right;"><input type="checkbox"/></p>

<p>Plan and implement progressive sequential instruction that addresses the diverse needs of students.</p> <p>NASPE Standard 3.6 InTASC Standard 7 Diversity Thread</p>	<p>Learning tasks are inappropriate for the developmental levels of students by being either too difficult or too easy. The candidate fails to make adjustments to tasks to accommodate students' developmental levels by increasing or decreasing task complexity. The sequence of the lesson may be illogical, with gaps in progressions.</p> <p>Learning/practice tasks are arranged randomly in the lesson with steps between progressions either too large or too small to facilitate skill mastery.</p> <p>The candidate fails to pre-assess students to determine an appropriate starting point. Students are grouped for convenience (by gender, age, etc.) without consideration of the objectives for the lesson. <input type="checkbox"/></p>	<p>Students' developmental levels and the teaching environment are considered in lesson planning and implementation, but students are over challenged or under challenged by some lesson elements or performance expectations. Some lesson elements are awkwardly sequenced or timed. Pre-assessment to determine student readiness has taken place, but fails to consider important elements affective lesson outcomes. In sufficient forethought is given to student grouping. <input type="checkbox"/></p>	<p>The candidate's consideration of the context of the teaching environment is reflected in the planning and implementation of lessons. Multiple methods are used to convey content. The candidate groups students in a variety of ways based on objectives for lessons. All students are expected to learn and achieve mastery. Task complexity is appropriate for students' developmental levels.. The candidate makes class-based adjustments to tasks to accommodate students' developmental levels. Progressions are sequential and progressive with no gaps. <input type="checkbox"/></p> <p>The candidate pre-assesses students to determine an appropriate starting point. <input type="checkbox"/></p>	<p>Learning outcomes and tasks provide appropriate challenges for students (tasks are neither too easy nor too difficult). The candidate makes adjustments to tasks for the entire class and for individuals based on student performance (increasing or decreasing tasks complexity).</p> <p>Learning/practice tasks allow students to begin and end at different levels based on individual readiness. Progressions are sequential with opportunities for students to extend tasks to increase or decrease the challenge. <input type="checkbox"/></p> <p>The candidate individualizes starting points for students based on student pre-assessment. He or she sets high expectations for all students. <input type="checkbox"/></p>
<p>Demonstrate knowledge of current technology by planning and implementing learning experiences that require students to appropriately use technology to meet lesson objectives.</p> <p>NASPE Standard 3.7 InTASC Standard 8 Technology Thread</p>	<p>The candidate does not make appropriate use of the available technology. The candidate demonstrates limited knowledge of current technology and its applications in a physical activity setting. The candidate's use of technology does not align with lesson objectives. <input type="checkbox"/></p>	<p>The candidate makes provisions for the integration of technology in lesson and unit planning; planning is not consistently appropriate or adequate. He or she demonstrates insufficient understanding of the use of planning technology with the lesson context; implementation of technology is inadequate. <input type="checkbox"/></p>	<p>The candidate integrates learning experiences involving students in the use of technology. He or she demonstrates knowledge and use of current technology and applies this knowledge in the development and implementation of lessons in a physical activity setting. His or her use of technology is aligned with lesson objectives. <input type="checkbox"/></p>	<p>The candidate integrates learning experiences requiring students to use various technologies in a physical activity setting. He or she demonstrates mastery of current technologies and uses them to enhance student learning. He or she incorporates technology such as pedometers, video, etc. to provide feedback to students. His or her use of technology is aligned with lesson objectives. <input type="checkbox"/></p>

Criteria	Needs Improvement 1	Emerging Competence 2	Competent 3	Outstanding 4
Accepts criticism Data source: pre-post conference; classroom observation	The candidate responds defensively to constructive criticism; does not modify teaching practices to meet supervisor expectations. <input type="checkbox"/>	The candidate is polite when criticized, but does not follow though sufficiently with supervisor suggestions. <input type="checkbox"/>	The candidate accepts and responds appropriately to constructive criticism; her or she modifies teaching based on previous feedback. <input type="checkbox"/>	The candidate seeks out and embraces constructive criticism in a desire to maximize teaching ability and effectiveness. <input type="checkbox"/>
Cooperative relationships Data source: pre-post conference InTASC Standard 9(d)	The candidate is distant and aloof from his or her classroom mentor and/or University supervisor. <input type="checkbox"/>	The candidate is sometimes moody; his or her attitude and relationships with others varies depending on outside circumstances. <input type="checkbox"/>	The candidate maintains cooperative and appropriate relationships with his or her classroom mentor and University supervisor. <input type="checkbox"/>	The candidate cultivates and develops positive relationships with colleagues and mentors as a means to further his or her personal and professional growth. <input type="checkbox"/>
Professionalism Data source: Classroom observation	The candidate is unprofessional. His or her teaching practices are disorganized; his or her dress is unkempt or sloppy; personal grooming and/or hygiene is not representative of a professional educator. <input type="checkbox"/>	The candidate's actions and behaviors sometimes fall below professional expectations. His or her teaching practices do not consistently meet professional standards. Personal grooming and hygiene could be improved. <input type="checkbox"/>	The candidate demonstrates professionalism. Professional student teaching standards, including personal grooming and hygiene, are met consistently. <input type="checkbox"/>	The candidate exhibits professional behavior in all areas of his or her teaching practices: relationships with others, planning practices and work habits, attitudes and beliefs, all meet the highest professional standards. The candidate's dress and grooming is an exemplar for his or her colleagues and students. <input type="checkbox"/>
Self-reflection Data source: planning documents; pre-post conference InTASC Standard 9.2	The candidate is not self-reflective. <input type="checkbox"/>	The candidate is self-reflective, but productive change and growth is limited by lack of planning and inconsistent follow through. <input type="checkbox"/>	The candidate uses self-reflection as a means to improve his or her personal attributes and professional performance. <input type="checkbox"/>	The candidate regularly and systematically evaluates the factors that contribute to his or her teaching effectiveness, and engages in productive change to improve student-learning outcomes. <input type="checkbox"/>
Relationships with colleagues Data source: pre-post conference InTASC Standard 10	The candidate has a negative or non-existent relationship with colleagues. <input type="checkbox"/>	The candidate demonstrates cordial relationships with colleagues. <input type="checkbox"/>	The candidate is accepted in the school community as a professional colleague. <input type="checkbox"/>	The candidate seeks out and collaborates with school colleagues to identify and resolve student learning and behavioral difficulties. <input type="checkbox"/>

Implement effective demonstrations, explanations, instructional cues and prompts to link physical activity concepts to appropriate learning experiences. NASPE Standard 4.2 InTASC Standard 5	The candidate either provides no demonstration or incorrect demonstrations. He or she provides either too few or too many instructional cues or prompts for the developmental level of students. Instructional cues are incorrect or do not identify key elements of the skill/strategies.	Instructional demonstrations are mostly adequate and correct; instructional cues or prompts are mostly appropriate for the lesson content and student developmental levels.	The candidate provides effective demonstrations during the instructional episode. He or she creates instructional cues or prompts that identify key elements of the skill/strategies and are appropriate for the developmental level of students. The candidate repeats the cues/prompts appropriately.	The candidate provides effective demonstrations during the instructional episode. He or she creates innovative instructional cues/prompts to facilitate learning including finding ways to make abstract concepts concrete. He or she consistently repeats the instructional cues or prompts throughout the lesson.
Provide effective instructional feedback for skill acquisition, student learning, and motivation NASPE Standard 4.3 InTASC Standard 6	The candidate provides generalized feedback without connecting the feedback to a specific response. Feedback is motivational and not corrective. Feedback is provided to the group as a whole.	Candidate to student feedback is sometimes specific but tends to be generalized; feedback is intended to be corrective, but is not consistently well-timed or well thought through.	The candidate provides both generalized and corrective feedback that is well-timed. Feedback is linked directly to student responses. A combination of positive, specific and corrective feedback is used. Both individual and group feedback is given.	The candidate provides positive, specific, corrective feedback that is well-timed. Feedback is linked directly to student responses and identifies key elements. Both individual and group feedback is given.
Recognize the changing dynamics of the environment and adjust instructional tasks based on student responses NASPE Standard 4.4 InTASC Standard 8	The candidate delivers lessons by remaining on script without regard to student responses. The candidate fails to recognize changes in the teaching environment or fails to make adjustments based on changes in the environment.	The candidate's tendency is to follow the lesson-plan outline, but is aware of the need to adapt to changing environmental conditions and student responses and attempts appropriate adaptations.	The candidate makes adjustments to planned lesson based on student responses. The candidate demonstrates flexibility in the lesson or with students by adjusting lesson based on student responses.	The candidate demonstrates flexibility and creativity when adjusting the lesson based on student responses. The candidate appropriately responds to teachable moments during the lesson.
Integration of Technology InTASC Standard 5 Technology Thread	The candidate does not understand how to use technologies to achieve learning goals.	The candidate understands how to use digital and interactive technologies to achieve learning goals.	The candidate uses digital and interactive technologies for efficiently and effectively achieving specific learning goals.	The candidate skillfully integrates digital and interactive technologies into his or her teaching for the efficient and effectively achievement of specific learning goals.

InTASC Progressions

The intended use of these progressions is as a support tool for improving instruction. Their purpose is to provide descriptions of graduated levels of sophistication of teaching practice. Used in this way, they can be a formative assessment tool. The word "assessment" is derived from the Latin *ad sedere*, meaning "to sit

down beside.” As the etymology implies, assessment (in contrast to evaluation) is primarily concerned with providing guidance and feedback for growth. The progressions provide a pathway and common language from which teachers can talk about their practice. The purpose of the progressions is to generate information for teachers to self-assess against and reflect upon, and for mentors and coaches to use to provide feedback in order to improve professional practice.

As a tool that provides a common language about how to develop and grow effective teaching practice, the progressions can be used by a range of stakeholders at different stages of a teacher’s career. For instance, **Preparation program providers and cooperating PK-12 teachers** can use the progressions to inform the preparation curriculum, including what content focus is included and how coursework is sequenced, how experiences during clinical practice should be scaffolded, and what should be included in a “bridge plan” for continued growth for pre-service teachers as they move to in-service and their induction period.¹

NOTE: The following InTASC progressions have been added to this pedagogical assessment rubric. These progressions describe the increasing complexity and sophistication of teaching practice for each core standard across the three developmental levels. Even though the InTASC Progressions are included in what is normally a summative assessment, their use is to be formative only. Assessors and teacher mentors should point candidates to these standards, in the process helping them both understand where their current practice places them against these expectations, and also what yet must be accomplished to improve their instructional practices.
